

Instructions for assembly - Page 1

- 1) Cut around dotted lines
- 2) Cut out white area of the mouth
- 3) Fold four (4) flaps down
- 4) Align over top of tissue box (cut out mouth goes over the box opening); glue or tape flaps down on the sides of the box

- 5) Cut out shape
 - 6) Fold two (2) flaps down and fold at center
 - 7) Glue or tape flap 1 down on the right side of the box
 - 8) Glue or tape flap 2 down on the front of the box (the legs of the spider should align with the legs from the top of box)
- *Note: Glue or double sided tape can be applied to the sides of the box to help attach better.

- 9) Cut out shape
- 10) Fold at center
- 11) Glue (or use double sided tape) front of box
- 12) Glue (or use double sided tape) right side (the legs of the spider should align with the legs from the top of box)
